Stainless steel appliances, quartz countertops, full height ceramic tile backsplash, extra drawers, plenty of cabinets, a coffee station, corner pantry, and so much more. The kitchen opens nicely to the dining area, and living room, surrounded by incredible windows that flood the entire main floor with gorgeous natural light. The main floor features a nice size bedroom, as well as the primary bedroom with ensuite and walk in closet. You will love the custom feature wall in the primary bedroom, and the walk in shower and the closet built ins are fantastic. Custom wrought iron railing and another feature wall will take you downstairs to the basement. The basement family room is huge, and the walkout basement means extra windows, and even more natural light flooding in from all sides! The laundry room (with sink!) and two more bedrooms complete the basement. One of the bedrooms even has a custom built in reading nook! You will love curling up here on a rainy day with a good book! Even the mechanical room is thoughtfully designed. Check out how they've installed the furnace to maximize storage space! The feature list just keeps going. There are two decks, one up top complete with glass privacy wall and aluminum railing, as well as a concrete patio down below with the walk out basement. One of the best parts?! This home has no neighbours behind and the field behind was recently rezoned for a park! This will only improve this home's value.
