Check out this Two and a half storey classic historical home with cherished history of family stories attached to the years of it's existence. Located in the amazing district of London Road including a neighborhood association that works to preserve the integrity of the homes and the history of the properties so generations to come can appreciate the beauty of these gems. The tree lined street has such charm, and much history is all along this street. It was very prominent in it's time!. This full 50 foot lot has a lot of space for the vehicles or for the kids and pets. The cool thing about this house is that it has 3 floors of living space plus a basement. At one point there was a kitchen on the 2nd floor and two families living there and now it is back to a single family house that would work for generational living under one roof. This is a great family home with lots of living spaces or if an in home business is required the rear entrance means no coming through the whole house. There has been a lot of renos over the years from insulation, windows, drywall, wiring, updated fireplace, shingles, siding, 2 furnaces, and the addition of a 28 x 30 garage/workshop/studio/gymn outbuilding. A huge shed keeps the tools out of the garage and there is a lot of privacy the way the house sits on the lot. Rear alley access, great fencing around the yard makes this yard so versatile from keeping the kids and pets from wandering off!
